

An Unlucky Day

By Wong Rosabel 6A

What a shocking day for me! I slipped on a banana skin and broke my arm.

Today my friend Lisa and I went to a big shopping centre. The weather was not good and the sky turned black when we entered the shopping centre. Lisa and I first went to the clothes shop and bought a lot of new clothes. Since the clothes were too heavy, we could not take them for a long time and we could not buy more things. Therefore, we planned to go home but it started to rain. We did not have umbrellas so we ran to the bus stop. Suddenly, I slipped on a banana skin and hurt my arm. My body as well as the bags of clothes were all wet. I wondered, 'Why is there a banana skin?' Luckily, a lady gave us an umbrella and took care of us. She helped us go home.

Now, I am still very angry about who left the banana skin on the floor and I am worried about my arm too!

If I had a superpower...

By Lam Chun Hin, Vincent 6A

If I had a superpower, I hoped I could have the ability to travel to the future and fly to year 2112 when Doraemon, the robot cat, is born.

My teacher gave me a nickname as "Doctor Vincent" since I enjoy studying. I want to reach a doctorate degree and create robots afterwards.

Why do I want to travel to 91 years later? It is because I want to learn how such an intelligent robot like Doraemon can be invented. My dream is to contribute to the society by creating robots for helping the elderly. Nowadays, people tend to live a longer life while the birth rate is decreasing. Therefore, a lot of elderly may live alone. They need help for cooking and doing housework. However, they may not be able to employ helpers.

If I had the superpower, I would like to learn from the future so that I could shorten my time to create robots and the elderly could benefit from it earlier.

A film review - Charlie and the Chocolate Factory

By Lau Wang Yuet, Andy 6A

I have just watched a musical fantasy film. It is called 'Charlie and the Chocolate Factory'. The director is Tim Burton. It is a 2005 film.

The main characters are Charlie and Willy Wonka. The film is about Willy Wonka who owns a big and mystery chocolate factory. One day, Willy Wonka's chocolate factory rolls out a 'Golden Ticket' activity and five children win these golden tickets. Therefore, these lucky children begin their adventures in the weird Willy Wonka's chocolate factory.

I am amused by this film because the characters are funny and lively. The children in the film have different personalities and have exciting journey in the factory. I think the plot is interesting.

Helping children in need

By Lu Tsz Ning, Elsa 6A

Dear Principal,

I am writing to you because our School Charity Club would like to help UNICEF to raise money for the poor children in the whole world.

We would like to help the people who are facing different problems. Some poor children drink unclean water and get sick because the water is too dirty. There are no schools in some villages so the poor children cannot learn at school. Also, some poor children get sick easily because they do not have enough food so they are very weak.

Here are some ways to help. We would like to raise money for building water treatment plants and village schools in the poor places. We will sell flags and hold a charity walk. Besides, we will write letters and invite more volunteer doctors to help take care of the sick children.

I hope you would invite our students to take part in these meaningful events.

Yours sincerely,

The Christmas Chronicles

I have just watched a comedy. It is called "The Christmas Chronicles". It is produced by Michael Barnathan and its director is Matt Lieberman. It is a 2018's film.

The main characters are Santa Claus, Teddy and Kate. The film is about two siblings who noticed Santa in their house. They jumped into his sleigh and crashed it. Therefore, all the presents are lost and they need to turn everything back to normal. Otherwise, Christmas would be ruined.

I am attached by this film because my birthday is on Christmas. Another thing I like about this film is that it has a numerous amount of adventures.

I think the plot is breathtaking and well-written. It is so magical but at the end it is rather contented. The whole movie is kids-friendly and punchy every second. Therefore, I would definitely recommend my friends to watch it.

Chernobyl Diaries

I have just watched a horror film called 'Chernobyl Diaries'. It is produced by Oren Peli and Brian Witten. Its director is Brad Parker. It is a 2012's film.

The main characters are Ingrid, Berdal and Jonathan. The film is about a group of young tourists. They hope for adventure off the beaten path so they hire a tour guide. In spite of warnings, the tour guide takes the sightseers to the town of Pripyat in Ukraine, once home to workers at the nearby Chernobyl nuclear power plant but abandoned after 1986 nuclear disaster. After briefly exploring the ghost town, the tourists find out themselves stranded, and worse, they are not alone.

I am shocked by the Pripjat city in this film because everything there is ruined. There are gas masks, creepy looking dolls and radioactive cars everywhere. I was horrified by these scenes.

I think the special effects of this film are amazing. I would recommend this film to my friends if they want to be thrilled!

I am writing to you because our School Charity Club would like to help Sowers Action to raise money for poor students in China.

We would like to help the people who are facing different problems. Some poor children don't have enough stationery because they have no money to buy them. Some schools are too cold in winter and too hot in summer because there are no fans or heaters in the classrooms.

Here are some ways to help. We would like to collect some stationery and books and send them to the schools. We would also like to sell flags to raise money for the poor schools.

I hope you will be able to help us organize the charity events.

Dear Miss Tao,

I am writing to you because our School Charity Club would like to help Sower Action to raise money for the poor children in our motherland.

We would like to help the children who are living in villages and facing different struggles. They have a very poor learning environment because they don't have enough books, pencils or papers. Also, their schools are not good enough since they have got very few chairs, desks or blackboards.

Here are some ways to help. We would like to run a second-hand stall. If we can run such a stall, we can sell either stationery, crafts, food or decorations at the school playground. Furthermore, we can ask our students to donate some books and stationery for the poor children. I think it will be very meaningful.

I hope you can support our idea. Thank you so much.

Yours sincerely,

I have just watched an amazing Chinese animation which is far better than any animations I have ever watched. It is called Ne Zha. It has broken the Chinese Animation Records. It is produced by Chengdu Coco Cartoon and it is directed by Jiaozi. It is based on a traditional Chinese fairy tale, and it is a 3D computer animation adventure film.

The main characters are Ne Zha and his father Li Jing. The film is about a child who was born with unique powers. He is recruited to fight demons and save the community that fears him.

I am moved by this film because the plot is very touching. I would recommend this film to my friends because the special effects are so stunning and realistic. The film is exciting and it is your best choice if you love watching animations.

Save the dolphins

I am a dolphin living in the sea. I am writing because we are facing many problems. We need you to help save our lives.

The first problem is reclamation. You keep turning sea into land. Therefore, there are fewer places for us to live. We will be extinct unless you stop turning sea into land.

The second problem we are facing is water pollution. You keep dumping toxic waste into the sea. Therefore, we will become ill and die unless you stop dumping toxic waste into the sea.

The last problem is fishing. You keep fishing in areas where dolphins live. Therefore, there are fewer fish for dolphins to eat unless you stop fishing in areas where dolphins live.

Please stop doing these or you will make dolphins die.

Alvin and Joan's story

Joan and Alvin were friends but they did not get on well. They two were very timid. Joan is always hard-working on her study. However, Alvin is naughty like a monkey. He liked to play tricks on his friends.

Film Review

I have just watched a film called 'Cry Me A Sad River'. It is a romance directed by Guo Jingming in 2018.

The main characters are Mayme, Zhao Yingbo, Xin Yunlay and Zhang Ruonany. The film is about school bullying incidents. It means that the heroine Yi Yao was misunderstood as a murderer and then she was bullied by all schoolmates, splashed with dirty water, burned by a lighter, etc. The heroine couldn't stand the campus violence and she jumped into the river. And finally the heroine was rescued, but she had no more breathing!

I am really amazed by this film because it lets us know how terrible school violence is.

I think the plot that attracts me the most is when the hero second jump down to the river without hesitation to save the heroine.
